GALTech

Learning Management

Light, flexible, most trusted LMS. Easily create & sell courses, deliver quizzes, and award certificates, manage users, and download reports. Helps you access the latest eLearning industry trends for creating robust learning experiences.
Resource Management

You can schedule all your employees, staff, clients, and external people like contractors, delegates, and patients, all in a single secure tool with great visibility.

Schedule any type of work or activity. Plan and track work, jobs, meetings, appointments, courses, projects, and many others, as you can create your own categories the way you need.

Training Platform

Tracks basic personnel data for each employee, task progress, evaluator notes, and links files (certifications, employee records, etc.) for reference. Task history for tasks, tracking signoffs, expired tasks, certifications and decertifications, due dates, and test results. The Test modules allow setting tests, questions associated with tests (multiple choices, True/False, and Narrative), the ability to assign tests to different employees and store results of tests taken, and update task histories.
Workday Financial Management

Workday helps you remain agile and stay ahead of change with our flexible foundation. Adapt business processes while continuously tracking change as you go.
Machine learning reduces friction by continuously detecting anomalies and making recommendations. This helps finance interpret and review results while focusing on the areas of business that matter most.

Automatically ingests, enriches, and transforms business event data into accounting, simplifying your accounting in the process.

Classroom Management

Classroom management is the process by which teachers and schools create and maintain appropriate behavior of students in classroom settings. The purpose of implementing classroom management strategies is to enhance prosocial behavior and increase student academic engagement. Effective classroom management principles work across almost all subject areas and grade levels when using a tiered model in which school-wide support is provided at the universal level, classroom behavior management programs have shown to be effective for 80-85 percent of all students. More intensive programs may be needed for some students.
Teacher's Skill Development Program

Tracks basic personnel data for each employee, task progress, evaluator notes, and links files (certifications, employee records, etc.) for reference.

Task history for tasks, tracking signoffs, expired tasks, certifications and decertifications, due dates, and test results.

The Test modules allow setting tests, questions associated with tests (multiple choices, True/False, and Narrative), the ability to assign tests to different employees and store results of tests taken, and update task histories.
GALTech

Fixed Asset Management

Tracking, monitoring, and maintaining equipment, computers, cars, and other physical assets are all part of fixed asset management.

We've compiled a comprehensive fixed asset management features list to help you understand this software's purpose and choose the right system confidently.

Without a reliable way to manage your fixed assets, it's almost impossible to track maintenance requirements and depreciation.
